THERMAL COVER: THE BARRIER FOR YOUR PHARMACEUTICAL PRODUCTS

The **solution** to protect

pharmaceutical products
and medical devices from
thermal damages during
shipping and storage.

The Thermal Covers are designed to:

- preserve the cold chain by reducing temperature fluctuations
- offer tailor made protection
- meet all supply chain needs in terms of regulations and standards compliance

Distributeur Exclusif

WHY CHOOSE ECEPLAST THERMAL COVERS

A sustainable solution

The Thermal Covers are durable and **reusable**, thanks to materials that withstand pulling and tearing and a design that makes opening and installation easy.

LONGER LIFE CYCLE

REDUCED TRANSPORT COSTS

LESS ENVIRONMENTAL IMPACT

HEAT
(from radiation, convection and conduction)

HUMIDITY

COLD
